

## Outputs

The training set error percentage –

```
Data has converged at the 10800th run.  
Neural network is done training! Hit enter to validation processing.  
Error percentage on training set: 0.01078
```

The validation set error percentage -

```
Data has converged at the 100th run.  
Neural network is done validating! Hit enter to test it.  
Error percentage on validation set: 0.00014
```

The test dataset error percentage –

```
Testing done! Check out the generated output files ('testing_err.txt' and 'training_err.txt')  
Error percentage on testing set: 0.07465135356849877
```
